**ART**

The art program offers principles and practices of studio work, visual communication design, and the study of art history. Students participate actively and experience art in a significant manner so that their visual and cultural perceptions about art and design are challenged and broadened. Art majors are required to participate in progress reviews at the end of each academic year with art faculty and staff to review student progress in the program.

Any student enrolled at the College may take introductory level studio art courses (100 level). Art History classes of any level can be taken without prerequisites, although ART 131-132 is recommended. Enrollment preference is given to art majors for any art course. Supply fees are charged for each studio course. Exhibitions of student work are held throughout the year at the instructor's discretion. Field trips and out-of-class events may be required for some classes. The art major usually requires six consecutive semesters in an emphasis. Students are advised to begin the course of study at the beginning of their freshman year, if possible, but no later than their sophomore year. All art majors must have an art advisor to help facilitate progress in the major.

**ART MAJOR-GRAPHIC DESIGN EMPHASIS**

Students in the graphic design emphasis will learn techniques and theories of visual communication through the development of aesthetic awareness, cognitive thinking, and conceptual problem solving. Students will learn graphic design processes involving traditional media and computer-based technologies.

**MUSIC MAJOR**

Within the liberal arts framework, the music major offers a Bachelor of Arts degree, intended for students who wish a broad education in music. Students are expected to have a high level of musical competence in performance of their major instrument.

**Teacher Licensure in Music**

Students who seek an endorsement in music education must complete the courses for a major in music and take additional courses to meet teaching certification requirements. Students may prepare to teach NK-12 vocal/general music or NK-12 instrumental music. They may also choose to specialize in 1) instrumental music in which the student's primary performance medium is usually an orchestral instrument or 2) choral and general music in which the student's primary performance medium is voice or the student opts to pursue both specializations. Many students choose electives in the specialization which is not their main focus so they can prepare to meet professional challenges.

**Admission to the Music Major**

Freshmen who express interest in majoring/minoring in music should follow the appropriate music curriculum and receive advising from the Music Program coordinator. Students may apply for major standing as early as the end of the freshman year. A successful major standing jury will result in admission to the music major.

Transfer students who enter Lynchburg College with sixty or more accepted credits must apply for major standing during their first semester at the College. Approval for major standing may be granted after that first semester or the music faculty may defer final action until the end of the student's second semester of study. With the exception of transfer students who enter Lynchburg College with sixty credits or more, no deferrals on major standing are given after the student has completed seventy credits.

**Major Standing Juries**

Students majoring in music must successfully complete a qualifying review by the music faculty at the end of the sophomore year. Major standing juries for the Bachelor of Arts in music occur in the tenth week of classes each semester.

The jury for the B.A. in music will consist of a performance on the student's major instrument (except for composition). Several pieces should be fully prepared from which the jury can select two pieces to hear. The composition jury should ideally be the performance of an original work. In lieu of that possibility, the presentation of a portfolio of theoretical papers and/or related class projects may be submitted to the jury. The result of a major standing jury may be 1) approval, 2) deferral, or 3) denial.

**Recital Requirement:**

Performance of at least a half solo recital consisting of representative works from various periods in classical musical literature (minimum of thirty-five minutes of actual music required).

**THEATRE MAJOR**

The theatre major has been designed for students who wish to pursue careers in an array of arts and entertainment areas—including, but not limited to commercial, educational and community theatre, theme parks, museums, mass media, sales, management, and teaching. The program also provides an excellent base for advanced study in graduate or professional schools of theatre.

All theatre majors follow a thirty-six hour curriculum spread over their four-year course of study that provides a well-rounded education of and respect for the ensemble nature and totality of theatre art. Other elective courses allow a major to create an emphasis in a specific area of the discipline. Students actively apply their classroom education by participating in the College's main stage theatre productions, student-generated productions in the studio theatre, dance showcases, and through scenic, lighting, costume, and box office student employment opportunities. Majors are also encouraged to study in other disciplines in the School of Communication and the Arts. Students regularly interview, audition for, and find work in professional summer theatres.

Auditions and backstage opportunities in theatre productions are open to all students regardless of major or year.

The major in theatre requires:
