NEW HORIZONS NON-PROLIFERATION OF CAVES AGREEMENT

To further the conservation and preservation of caves, I agree that I will not return to the caves that I have visited with New Horizons of Lynchburg College. By returning to the caves without New Horizons or another competent, responsible and environmentally sound caving organization, I endanger myself, the cave, its ecology, and future access to the cave. I realize that caves are unique, sensitive and dangerous environments. With these considerations in mind, I agree not to return to the cave unless I return with New Horizons or another competent, responsible, and environmentally sound caving organization.

Cave Name _____ Date _____
