

## Suggested Curriculum Guide- Computer Science Major

While not all students will take all the courses in their major in exactly the same sequence, the guide below can be used in combination with the on-line graduation progress report as a pathway to degree completion. See the Academic Regulations in the Lynchburg College Catalogue for all academic degree requirements. Students should consult with their major advisor for guidance specific to their needs and interests. Note: Students who have not have programming experience should begin with C S 131, an elective course, fall semester.
