

## Suggested Curriculum Guide- Physics Major

While not all students will take all the courses in their major in exactly the same sequence, the guide below can be used in combination with the on-line graduation progress report as a pathway to degree completion. See the Academic Regulations in the Lynchburg College Catalogue for all academic degree requirements. Students should consult their major advisor for guidance specific to the student's needs and interests. Note: While it is possible to begin the major at the 102 level, beginning with MATH 103 (Calculus I) or a higher level is preferred.
