the designated UN member state assigned for representation at the National Model United Nations in New York, by preparing students in an Experiential Learning course, with researching the assigned country’s history, economics, politics and foreign policy, while learning UN policymaking procedure, negotiation, writing, debating and caucusing skills.

**POLI 340 INDEPENDENT STUDY IN POLITICAL SCIENCE (1-3)** *Prerequisite: POLI 220.*

For independent study credit, a student may undertake specialized reading, research, and writing, but only with approval in advance from the supervising instructor.

**POLI 362 RECENT POLITICAL THOUGHT (3)** *Prerequisite: INTL 101, POLI 111, or 112.*

This course examines some of the leading political thinkers of the twentieth century in order to understand the difficulties that may stand in the way of achieving justice in the political sphere. We will examine how justice may be achieved within a liberal political order; how the demands of justice impact the family; whether justice can be confined to the political sphere, or whether it must apply also within the private; and possible limitations of liberal democratic conceptions of justice.

**POLI 372 UNITED STATES FOREIGN POLICY (3)** *Prerequisite: INTL 101, POLI 111, or 112.*

This course examines the distinctive heritage of the United States in foreign affairs, the strengths and weaknesses of American foreign policy-making processes, and the means at the disposal of policymakers to carry out foreign policy in contemporary world affairs.

**POLI 375 U. S. - LATIN AMERICAN RELATIONS (3)** *Prerequisite: INTL 101, POLI 111, or 112.*

An examination of relations between the countries of Latin America and the United States, this course considers the historical influence of the United States on Latin American countries’ political, social, and economic development and how these relations have changed from Latin American independence to present-day. It includes analysis of current topics such as immigration, NAFTA, and the growing Hispanic influence within the United States society and politics.

**POLI 377 STUDY ABROAD (1-6)** *Prerequisite: INTL 101, POLI 110, 111, or 112.*

The course provides students the opportunity to study political science concepts, principles, and theories in foreign settings.

**POLI 397 INDEPENDENT STUDY IN POLITICAL SCIENCE (1-3)** *Prerequisites: Approval of faculty sponsor and school dean; junior or senior standing.*

This course provides students the opportunity to pursue individual study of topics not covered in other available courses. The area for investigation is developed in consultation with a faculty sponsor and credit is dependent on the nature of the work. May be repeated for no more than six credits.

**POLI 398 SPECIAL TOPICS IN POLITICAL SCIENCE (1-3)** *[credit depends on topic] Prerequisite: A background of work in the discipline.*

This course will focus on an aspect of the discipline not otherwise covered by the regularly offered courses. The topic will vary according to professor and term; consequently, more than one may be taken by a student during his/her matriculation.

**POLI 399 INTERNSHIP (1-6)** *Prerequisites: Juniors or seniors with a 2.25 minimum QPA; approval of written proposal by internship coordinator, and supervising faculty prior to registration.*

In a small number of cases, students may earn credit for participation in an internship with a government agency, law firm, political campaign, or nonprofit organization. Limited internship opportunities are available and must be jointly directed by a faculty sponsor and the responsible agency administrator. (See “Internships.”)

**POLI 410 SENIOR THESIS SEMINAR (3)** *Prerequisites: POLI 220, 321, and at least two other 300-level courses.*

The senior seminar is designed to be a capstone course in which the student, utilizing substantive and methodological knowledge accumulated through previous course work, develops and tests a relevant political hypothesis or closely related set of hypotheses. The course culminates with the writing and presentation of a formal research paper.

**PSYCHOLOGY COURSES (PSYC)**

**PSYC 103-104 GENERAL PSYCHOLOGY (3, 3)** *Corequisites: PSYC 105L-106L.* Three hours lecture per semester. This course sequence provides an overview of the subfields of psychology.
PSYC 105L-106L  GENERAL PSYCHOLOGY LABORATORY (1, 1) Two hours laboratory per semester. This course serves as an introduction to the laboratory techniques of psychology.

PSYC 212  INTRODUCTION TO BEHAVIOR MODIFICATION (3) Strongly recommended: PSYC 106L. Three hours lecture. This course studies the use of principles of learning and experimental design in the modification of a wide variety of human behaviors.

PSYC 213  PSYCHOLOGY OF EXCEPTIONALITIES (3) Three hours lecture. This course is designed to impart a basic understanding of persons with disabilities. It provides pre-service teachers with knowledge regarding disability-related laws, rules, and regulations (both state and federal), as well as definitions, causes, and characteristics of disability (all within a social-cultural, political, medical, psychological, and educational context).

PSYC 215  HEALTH PSYCHOLOGY (3) Strongly recommended: PSYC 103-104. Three hours lecture. This course examines the psychological, biological, and social factors involved in the promotion and maintenance of health and the prevention and treatment of illness. Students learn about the interaction of mind and body while exploring such topics as nutrition and eating disorders; cancer and heart disease; chronic illness and pain management; AIDS; smoking and alcoholism; and stress and coping.

PSYC 218  INTRODUCTION TO RESEARCH (1-3) Prerequisite: Consent of supervising instructor. This course provides the beginning student the opportunity to conduct lab, field, or library research under the supervision of a faculty member. Credit is dependent upon the scope of the work.

PSYC 230  PSYCHOLOGY OF AGING (3) Strongly recommended: SOCI 240. Three hours lecture. This introductory overview course examines the conceptual and theoretical approaches to the psychological aspects of aging. Personality variables and adaptive as well as maladaptive behavioral patterns are also studied.

PSYC 241  DEVELOPMENTAL PSYCHOLOGY (3) Three hours lecture. Growth, development, and associated behavioral change from conception through aging are studied in this course. Psychology majors are advised to take PSYC 341, which counts as a requirement in the major.

PSYC 245  HUMAN DEVELOPMENT FROM BIRTH THROUGH ADOLESCENCE (3) This course is intended for and required for students pursuing licensure in elementary, secondary, and special education programs. Skills in this area (from birth to adolescence) shall contribute to an understanding of the physical, social, emotional, speech and language, and intellectual development of children and the ability to use this understanding in guiding learning experiences and relating meaningfully to students.

PSYC 261  PSYCHOLOGY OF GENDER (3) This course examines psychological approaches to the study of sex and gender. Issues of male and female psychology are examined with a consideration of ways in which the similarities and differences between men and women influence behavior, cognitive abilities, and physical and psychological health. Theoretical perspectives on sex, gender, sex-role socialization and gender differences, and similarities across the lifespan are covered.

PSYC 263  PSYCHOLOGY OF LAW (3) This course examines the application of psychological principles, research, and knowledge to legal issues dealing broadly with the interface between psychology and the law. As such, the course will critically investigate the wide range of contemporary applications of psychology to a variety of topics including understanding the origins and treatments of criminally deviant behavior, psychological autopsies, criminal profiling, jury selection, eye witness testimony, repressed memory, persuasive communication in the courtroom, child abuse investigation, competence determination, and the insanity defense.

PSYC 265  INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY (3) This course focuses on the application of psychological principles and research to a variety of human issues in industry. Research techniques applicable in the field, along with data associated with various concepts and theories, are covered. Additional topics covered are personnel selection, training and evaluation; human factors and engineering psychology; and the organizational and social context of human work.

PSYC 267  THEORIES OF PSYCHOTHERAPY (3) Students are introduced to the theories and techniques used in therapeutic interventions with individuals and groups that provide a framework for the
process of psychotherapy. The course will provide a systematic, comprehensive, and balanced overview of the leading theories and techniques.

**PSYC 274**  **STATISTICS FOR PSYCHOLOGISTS (4)** Three hours lecture and two hours laboratory. This course introduces descriptive and inferential statistics with particular emphasis on applications to psychological research. A required laboratory supplements lectures.

**PSYC 275**  **RESEARCH METHODOLOGY (4)** Prerequisites: PSYC 103/105L-104/106L, 274. Three hours lecture and two hours laboratory. This course examines experimental and non-experimental strategies used in psychology and other scientific disciplines. Studies are critiqued, designed, and conducted. Students are required to use the writing style of the American Psychological Association for their reports.

**PSYC 302**  **SOCIAL PSYCHOLOGY (3)** Corequisites: PSYC 103-104. Three hours lecture. This course analyzes the effects of others in the social environment on individual behavior. Topics include group dynamics, attitude theory, aggressive and pro-social behavior, and person perception.

**PSYC 305**  **HUMAN MEMORY AND INFORMATION PROCESSING (4)** Prerequisites: PSYC 103/105L, 104/106L, 275. Three hours lecture and two hours laboratory. This course focuses on current approaches to human information processing, encoding, storage, retrieval, and models of forgetting and memory storage. Laboratory exercises are computer-based and demonstrate concepts studied in class.

**PSYC 306**  **THEORIES OF PERSONALITY (3)** Prerequisites: PSYC 103/105L, 104/106L. Three hours lecture. A study of both the historical roots and the contemporary bases of personality theory are studied.

**PSYC 308**  **ABNORMAL BEHAVIOR (3)** Prerequisites: PSYC 103/105L, 104/106L. Three hours lecture. This course looks at a variety of disturbing behaviors, as well as determining factors, symptoms, and methods of treatment.

**PSYC 311**  **SENSORY PROCESSES AND PERCEPTION (4)** Prerequisites: PSYC 103/105L, 104/106L, 275. Three hours lecture and two hours laboratory. This course examines cognitive information processing which occurs in the reception, integration, and interpretation of incoming sensory stimuli and the physiological and anatomical bases of these processes. Laboratory exercises are computer-based and demonstrate concepts studied in class.

**PSYC 312**  **LEARNING AND MOTIVATION (4)** Prerequisite: PSYC 275. Three hours lecture and two hours laboratory. The course focuses on a detailed analysis of data pertaining to theories of learning and to the determinants of behavior change.

**PSYC 315**  **DRUGS AND BEHAVIOR (3)** Prerequisites: PSYC 103/105L-104/106L. Three hours lecture. The biochemical and physiological bases of drug action are presented as a basis for understanding the physiological and behavioral effects of drugs. The major classes of drugs are discussed with particular emphasis on popular drugs of abuse such as alcohol, nicotine, cocaine, and marijuana. The use of drugs in the treatment of mental disorders is also discussed.

**PSYC 341**  **PSYCHOLOGY OF DEVELOPMENT (3)** Prerequisites: PSYC 274, 275. This course in developmental psychology is intended for majors in psychology and critically examines the psychological theories and research that describe and explain human development.

**PSYC 344**  **COGNITIVE PSYCHOLOGY (3)** The purpose of this course is to introduce students to the major areas of cognitive psychology including the current methodologies used to study it. The course explores cognitive psychology within the domain of human information processing and the ways in which people learn and think in an attempt to understand the nature of human thought processes. Topics covered include attention, decision-making, language acquisition and use, knowledge representation, problem solving, and reasoning. Current models of cognition are considered in relation to the evidence on human thinking capabilities.

**PSYC 355**  **PHYSIOLOGICAL PSYCHOLOGY AND LABORATORY (4)** Prerequisites: PSYC 103/105L-104/106L, 275. Three hours lecture and two hours laboratory. This course involves the
study of the biological bases of behavior. The focus is on the physiological mechanisms that mediate emotional, sexual, ingestive, and aggressive behaviors, as well as on the mechanisms mediating perceptual, learning, and memory processes. Laboratory exercises complement lectures and reading materials by providing hands-on experience with research techniques used in physiological psychology that illustrate the links between physiology and behavior.

**PSYC 367  CHILD PSYCHOPATHOLOGY (3)** The goal of this course is to provide an overview of the field of child psychopathology. The etiology, assessment, and treatment of the major psychological disorders of childhood and adolescence will be discussed. Other topics covered include research methods, diagnosis and classification, child maltreatment, and cultural diversity.

**PSYC 374  ADVANCED METHODS: SOCIAL (1) Prerequisite: PSYC 275.** A two-hour laboratory focused on research in social psychology. Students investigate a topic of interest through aspects of the research process that may include the design of a proposal, conducting research, analyzing information, and presenting results.

**PSYC 375  ADVANCED METHODS: DEVELOPMENTAL (1) Prerequisite: PSYC 275.** A two-hour laboratory focused on research in developmental psychology. Students investigate a topic of interest through aspects of the research process that may include the design of a proposal, conducting research, analyzing information, and presenting results.

**PSYC 376  ADVANCED METHODS: COGNITIVE (1) Prerequisite: PSYC 275.** A two-hour laboratory focused on research in cognitive psychology. Students investigate a topic of interest through aspects of the research process that may include the design of a proposal, conducting research, analyzing information, and presenting results.

**PSYC 392  INTRODUCTION TO PSYCHOLOGICAL TESTS AND MEASUREMENT (3) Prerequisites: PSYC 103/105L, 104/106L, 308.** Three hours lecture. This study of psychological testing includes theories of test construction, the nature of psychological testing, and the kinds of tests available. General types of tests for assessment of personality, abilities/intelligence, psychopathology, and neurological functioning will be studied.

**PSYC 392L  INTRODUCTION TO EDUCATIONAL AND PSYCHOLOGICAL TESTS AND MEASUREMENT LAB (1) Prerequisite or corequisite: PSYC 392.** This course will be an application of the administration, scoring, and interpretation of educational and psychological tests for diagnostic purposes.

**PSYC 397  INDEPENDENT STUDY IN PSYCHOLOGY (1-3) Prerequisites: Approval of faculty sponsor and school dean; junior or senior standing.** This course provides students the opportunity to pursue individual study of topics not covered in other available courses. The area for investigation is developed in consultation with a faculty sponsor and credit is dependent on the nature of the work. May be repeated for no more than six credits.

**PSYC 398  SPECIAL TOPICS IN PSYCHOLOGY (1-3) [credit depends on topic] Prerequisite: A background of work in the discipline.** This course will focus on an aspect of the discipline not otherwise covered by the regularly offered courses. The topic will vary according to professor and term; consequently, more than one may be taken by a student during his/her matriculation.

**PSYC 399  INTERNSHIP (1-12) Prerequisites: Eighteen hours of psychology exclusive of introductory psychology. Juniors or seniors with a 2.25 minimum QPA; approval of written proposal by internship coordinator and supervising faculty prior to registration.** Internships occur in an agency or other institution involved in clinical services. (See “Internships.”)

**PSYC 401  HISTORY AND SYSTEMS OF PSYCHOLOGY (3) Prerequisites: PSYC 103/105L, 104/106L, 275.** Three hours lecture. This course provides critical examination of historical antecedents and discernable systems of contemporary psychology. It is recommended for the senior year after considerable coursework in psychology.
