

AN INTRODUCTION TO LYNCHBURG COLLEGE

Mission

Lynchburg College, a private coeducational institution founded in 1903 in covenant with the Christian Church (Disciples of Christ), offers distinctive undergraduate and graduate programs that reflect its commitment to teaching and learning, scholarship, and service to the broader community.

The mission of Lynchburg College is to develop students with strong character and balanced perspectives and to prepare them for engagement in a global society and for effective leadership in the civic, professional, and spiritual dimensions of life.

Lynchburg College provides its students with a wide range of rigorous educational experiences delivered through multiple modes of instruction. Undergraduate programs are grounded in the liberal arts, enhanced by professional studies, and nurtured by a residential community. Further, the College's quality graduate programs respond to identified community needs, advance scholarship in the discipline, and promote student career goals. Lynchburg College extends its reach beyond the campus through experiential learning, cultural opportunities, and service by sharing the expertise and commitment of faculty, staff, and students with the broader community.

In support of its mission, Lynchburg College is an academic community that:

- fosters a student-centered environment;
- develops the breadth of knowledge associated with liberal education;
- develops depth of knowledge and promotes focused inquiry in academic disciplines;
- respects and supports diversity;
- values and celebrates diverse faith traditions; and
- sustains close working relationships among faculty, staff, students, alumni, and community partners.

History

Lynchburg College was founded as Virginia Christian College in 1903 by Dr. Josephus Hopwood, a pioneer in Christian coeducation whose mission was to educate both men and women. His wife and professional colleague, Sarah Eleanor LaRue Hopwood, shared his beliefs and vision and worked with him to establish one of the oldest coeducational colleges in Virginia. From its earliest days, Lynchburg College has maintained an association with the Christian Church (Disciples of Christ), since it was through the support of Disciples of Christ ministers and businessmen that the College was founded.

Dr. Hopwood was serving as president of Milligan College in Tennessee when a group of Christian Church (Disciples of Christ) ministers and businessmen approached him about starting a college in Lynchburg on the site of a failed resort, West Lynchburg Inn, which was available for sale. Impressed by the resort's setting and the area's natural beauty, Dr. Hopwood declared, "Boys, we'll take it." The property was purchased for \$13,500, and the hotel was re-named Westover Hall.

The stately gray building served for six years as a multi-purpose facility housing dormitories, offices, classrooms, dining hall, and a chapel. In 1909 construction was completed on Main Hall, the first academic building (later named Hopwood Hall), and Carnegie Hall, a men's residence hall, partially funded by a gift from industrialist and philanthropist Andrew Carnegie.

Since then, a continuous building program has been carried out in accordance with the College's original campus master plan that called for future buildings to form an elliptical pattern that would exemplify Dr. Hopwood's guiding principles of faith and reason. As part of this plan, Hopwood Hall (1909) and Snidow Chapel (1966) were built at the east and west ends of campus, completing the ellipsis.

The College began its first year with eleven faculty members and fifty-five students, and the first graduating class consisted of five men and three women. Today, Lynchburg College has 171 full-time faculty members and 2,800 undergraduate and graduate students from throughout the United States and around the world.

In 1919, the College changed its name from Virginia Christian College to Lynchburg College to avoid confusion with another institution in the area and because the College's church constituency had expanded beyond Virginia.

The period from 1964 to 1983, saw the largest building expansion in College history, increasing the number of major buildings on campus from nine to nineteen.

In 1998 the College extended into Bedford County with the creation of the Claytor Nature Study Center, a 470-acre outdoor classroom for environmental study. The 18th century farm and plantation house were donated to the College by the late A. Boyd Claytor III to create an education and research center for environmental study and to preserve the land for future generations. Freshwater streams, woodlands, wetlands, grasslands, rare plants, and wildlife abound at the Center, which includes Cloverlea, the original farmhouse; the A. Boyd Claytor III Education and Research Facility including laboratories and conference facilities; the Belk Astronomical Observatory; the Chandler Eco-Lodge, a 16-bed facility built with environmentally friendly materials and state-of-

the-art energy-saving technologies; a hiking trail system; a small group campground; and an amphitheater.

The newly renovated Drysdale Student Center now provides 72,000 square feet of space that includes a welcome center, a fitness center, meeting rooms, multicultural center, a Commons space, veterans' lounge, dance and aerobics space, a game room, and additional venues for dining. The \$12 million expansion and renovation began in 2012 and was completed in the fall of 2014. The building is named for Douglas and Elaine Drysdale whose generous support made the renovation possible.

The College's varsity athletic program includes 21 sports for men and women. In 2014, LC's women's soccer team won the NCAA Division III championship, the first team national championship in the history of the College. A charter member of the Old Dominion Athletic Conference, the College also supports several intramural and club sports for men and women. The Turner Athletic Facility includes exercise and fitness areas, a dance studio and one of the top exercise physiology labs in Virginia. Shellenberger Field is state-of-the-art with artificial turf, an eight-lane track, night lighting and a 3,000-spectator capacity stadium with chair and bleacher seating.

Through the years, Lynchburg College has maintained its commitment to the liberal arts, while also encouraging professional preparation in the belief that the two areas of study support and complement one another. The College offers a rigorous academic program of undergraduate, pre-professional, and graduate programs, which were initiated in 1964. The College awards bachelor of arts, bachelor of science, master of arts, master of business administration, master of education, master of physician assistant medicine, master of science in nursing, doctor of physical therapy, and doctor of education in leadership studies. Three new master's programs will begin in the fall of 2015: master of criminal justice leadership, master of nonprofit leadership studies, and master of public health.

Lynchburg College is nationally recognized as an institution that offers quality educational opportunities while building the character and the leadership ability of its students. Lynchburg College is one of only 40 colleges nationwide, to be included in Loren Pope's *Colleges That Change Lives* and one of 60 institutions nationwide selected to participate in the Bonner Leaders Program.

More than a century after its founding, Lynchburg College continues to lead the way in educational opportunities, standing as a tribute to the Hopwoods' pioneering spirit.

The Campus

Located in the heart of Lynchburg on 264 acres, LC's beautifully landscaped campus is a showplace. More than forty buildings, many of Georgian style architecture, grace the campus with the Blue Ridge Mountains forming the western skyline. Nearby are newly renovated athletic fields and tennis courts.

A new Health Sciences Building on Monticello Avenue is a ten-minute walk from the main campus and houses the Doctor of Physical Therapy and Masters of Physician Assistant Medicine programs.

A small lake is bordered by wooded hills and part of an original forest of oak, hickory, poplar, pine, and dogwood.

The 470-acre Claytor Nature Study Center in Bedford County sits at the foot of the Blue Ridge with a spectacular view of the Peaks of Otter.
