9-24-20.

Hey, thank you for your support, know I send my love and respect to you and your friends working on this project. The problem with our system today is there are no ethics, we have proof that the Federal Agents lied on the investigation and the U.S. attorneys coached their witnesses into lying under oath, just to put me out of business for a personal agenda for Carole and Peta, they charged me with 18 counts of the Endangered Species Act because I wouldn't plead guilty to 1 murder for hire charge, look up on PACER Peta vs Tim Stark - Peta vs Tristate Zoo Peta vs Dade City Wildthings what the feds charged me criminally with is what Peta is suing them under, where is ethics in that? or. Equal Justice,

Don Ashe the Federal Wildlife Director in 2016. put generic tigers on the Endangered Species list to put us private zoos out of business. He is and was the CEO of the AZA, he used his government position to benefit his private non-profit to create an illegal monopoly. Do some research and you will be amazed - not just me, look at the Fizer warrants the lying by the FBI in the General Flynn case. This is out of control, they are kidnapping people.
